Do you collect tickets like they are Pokémon? If so, you may end up needing high-risk car insurance. If you have been unlucky enough to get a DUI or other major ticket or if you have been pulled over for a few too many speeding tickets, your regular insurance agent may not be able to help you but not to worry, we can.

High-risk car insurance – or nonstandard auto insurance – is designed for individuals who are considered by the insurance companies to be more likely to have an accident.
Mid-Columbia Insurance specializes in helping high-risk drivers find affordable car insurance. Non-standard car insurance does have higher premiums, but a high-risk driver can improve their driving record over time and thereby reduce their premiums and even move back to standard insurance premiums.

If you have collected too many tickets or the wrong kind of tickets, call us today at 509-783-5600 or request a quote online at MidColumbiaInsurance.com
